Linkwell Telesystems Pvt. Ltd.

Patparganj, Delhi

Subject: Integration of Biometric devices at registered Training Providers for Mahakaushalya Portal under various schemes.

Sir/ Madam,

Maharashtra State Skill Development Society (MSSDS) is the Nodal Agency for implementing & monitoring Skill Development initiatives in the State of Maharashtra.

MSSDS has launched a web portal www.mahakaushalya.com in the month of April 2015 for implementation of various Skill Development Schemes in the State. Biometric attendance of all students and trainers, are made compulsory for all Skill Training Providers registered on mahakaushalya portal.

It has been brought to our notice that the Training Providers who have already purchased biometric machines from you are not able to commence training batches as the integration process remains incomplete on mahakaushalya portal and biometric device providers are not willing to write the web services for integration of already purchased device on mahakaushalya portal.

I would appreciate if you could provide these services to our registered Training providers and resolve the issue.

In case of any technical query, kindly contact Frank Rego - 022-23557700/ 40044229 from RIPL who is the Technical person for integration of mahakaushalya portal.
